

On December 8th, 2012, USSH Scientific Conference for Young Staff, graduate students – Division of Faculty of Vietnamese Studies - was held at Faculty of Vietnamese Studies. The participants were the Representative of Department of Scientific Research and Projects, Faculty's lecturers, staffs and graduate students.

Papers in this conference have shown the interest in many fields of Vietnamese Studies such as Vietnamese teaching methodology, culture, tourism, etc. 11 papers were presented in this conference. Foreign authors' reports attracted a lot of attention and discussion from participants such as studies of William B.Noseworthy, Kang Young Mi, Kasa Yukie.

This is an useful scientific activity, make good chances for young lecturers, graduate students to exchange and present their study. Particularly for graduate students, this is one of condition to evaluate the result of their graduation thesis.
